Subject: FW: Possum Pt - Outfall 010 sample 2/8/16
Attachments: DMR - Outfall 010 + Toe Drain.xlsx; 2015-2016 CBI VELAP CERT.pdf; GAIC1603 Report.pdf

Dana,

Use the Excel spreadsheet for the 010 eDMR. Save the other two attachments for reference and future inspections. GAI will be sending me a name to put in the 010 page.

I will attach the toxicity report to the eDMR.

This will be the last discharge report for 010. Future eDMR pages for 010 will need to be checked "No Discharge".

Ken / Jeff,

Attached are the complete results for the:

- 4-hr manual flow composite samples collected on 2/8/16 for metals, and
- 24-hr manual flow composite samples collected on 2/8 and 2/9/16 for acute toxicity.

Acute toxicity results are good for both the UV and non-UV treated samples. I attached the acute toxicity lab report.

Sincerely,

John D. DeBarbieri, P.E.

Ken / Jeff,

00012251

Regarding the below tabulated results for the Pond D Toe Drainage; we added the results of the Pond D Toe Drainage sample (4-hr manual flow composite) also collected on 2/8/16. Please refer to the attached.

Sincerely,

John D. DeBarbieri, P.E.
